RUGS

ART SQUARE AND CENTER RUGS

You should see the beautiful assort-
ment we have just received of these
Rugs.

Every housekeeper knows the value
of a Rug for preserving her hardwood
floors and putting the finishing touch
to a well-furnished room.

Knowing this, we would also have
her know that this is an unusually
beautiful assortment, and the prices
are away down.

We want you to come and see them.
We received at the same time some
handsome mahogany and golden oak

LIBRARY AND PARLOR TABLES.

These Tables are some of the swell-
est we have ever handled, and will
suit the most fastidious taste.

PUULOLO TRAM LINE

THE BEACH AT PEARL
HARBOR WILL IMPROVE

New Summer Residence Site is to
be Rapidly Developed---
Fine Bathing and
Good Land.

Puuloa is to have a car line instal-
led in a very short time which will be
in operation within six weeks. The
material for the line arrived here in
the Claudine on Sunday and will be
shipped to Pearl Harbor this week in
the schooner Rob Roy, which has
been chartered to do the work.

All along the beach at Puuloa, re-
sidence lots have been laid out to the
number of over three hundred, of
which about one hundred and forty
are right on the beach, while the oth-
ers are set back on a splendid
beachward one hundred feet wide. The
agents having the sale of the land in
hand have made allowance for those
purchasers who feel that they cannot
afford a lot right on the beach but will
be satisfied with a place back from
the water-line, by reserving beach lots
which will be kept from sale so that
the residents of each block of six lots
on the boulevard will have a half-acre
bathing-place right on the beach.

The site is of the same character as
the beach at Waikiki and only needs
development to make it as beautiful
in every respect. Where Waikiki is
but half an hour from town, with lots
held at regular city prices and way
beyond the reach of any ordinary in-
come, the lots at Puuloa are easy of
access at the present time, within an
hour with a horse and buggy, and will
soon be brought into closer touch
with town by the O. R. & L. Co.,
which will run a spur line from Pu-
uloa station to the land opposite the
lots. Arrangements for this and a
regular ferry across the channel are
now being made and will soon be ac-
complished. As soon as the
tram line is installed building will be
commenced by several purchasers of
lots on the beach. Prospects of get-
ting good water are said to be fine and
a well is now being sunk on the land.
Within a few weeks it will be known
positively what kind of water is to be
had and arrangements will be made
for laying it on the property.

Walter F. Dillingham, who is hand-
ling the property for the trustees of
the Dowsett Estate, is meeting with a
great deal of success in interesting
people in the new summer home site,
and this far has had promises of many
intending purchasers, while several ac-
tual buyers have already taken over
their lots.

POLICE COURT CASES

MAJORITY PUT OVER
UNTIL LATER DATES

Work Blocked By Lack of Interpreters
---Women Caught in Russian
Frank's Place---Kekipi
Warned.

There were a large number of cases
in the Police Court this forenoon, but
the majority of them were set for
later dates.

Kamalanu and three others appear-
ed on the charge of assault and bat-
tery on Kamalekuanua, who, as a re-
sult of the attack, is now under a phy-
sician's care. The cases of the latter
were held over for Kamalanu's plea.
quity, said the assault was unprovoked
and was given a month's imprison-
ment at hard labor.

The cases of three Chinamen,
charged with an assault on Officer Ah
Ou, had their cases continued until
tomorrow.

Young Jim Mersberg appeared on
the charge of gross cheat. The trans-
ways company is the complaining
witness. This case was also contin-
ued.

Annie Hamumua and Kalua, who
were caught in Russian Frank's place
on King street Sunday night, and
who pleaded guilty to a certain charge
yesterday, had sentence suspended for
thirteen months. The Deputy
Sheriff explained that, when the raid
was made, the two men concerned es-
caped.

Louise, a Porto Rican caught at the
same place at the same time, said she
was not guilty of being a common pro-
stitute. Her case was put over until
tomorrow.

John Callahan, the man who several
months ago tried to sell rings to
Chester Boyle, the man who was al-
ready on the want at Nawiliwili by
the Sheriff of Kauai, appeared again
in the Police Court today. At the re-
quest of the prosecution, his case was
continued until moved on. Judge Wil-
cox remarked to the defendant that,
while he was undoubtedly anxious to
ship on some vessel, no one anxious
to take him had yet been discovered.

The work of the Police Court was
again blocked today by the lack of in-
terpreters, and Judge Wilcox repeated
what he has said before on the sub-
ject.

Rev. Kekipi, charged with a serious
offense, appeared in court today. The
case was continued until tomorrow,
and the defendant was told to beware
how he molested further the woman in
the case.

There is a rumor that the young
King of Italy, the young Duke of Ru-
ssia and the aged Emperor of Austria
Hungary are to have a meeting for
the consideration of the state of
things in the Balkans—that is to say,
to name the disturbing and dangerous
point, Bulgaria. The Bulgarian Gov-
ernment is unquestionably in need of
consideration, and possibly of some-
thing stronger—Hartford Courant.

disease of the excretory
system. It is a disease
of the integumentary
system. It is a disease
of the musculoskeletal
system. It is a disease
of the skeletal system.
It is a disease of the
muscular system. It is
a disease of the nervous
system. It is a disease
of the endocrine system.
It is a disease of the re-
productive system. It is
a disease of the diges-
tive system. It is a
disease of the respira-
tory system. It is a
disease of the circula-
tory system. It is a
disease of the excretory
system. It is a disease
of the integumentary
system. It is a disease
of the musculoskeletal
system. It is a disease
of the skeletal system.
It is a disease of the
muscular system. It is
a disease of the nervous
system. It is a disease
of the endocrine system.
It is a disease of the re-
productive system. It is
a disease of the diges-
tive system. It is a
disease of the respira-
tory system. It is a
disease of the circula-
tory system. It is a
disease of the excretory
system. It is a disease
of the integumentary
system. It is a disease
of the musculoskeletal
system. It is a disease
of the skeletal system.
It is a disease of the
muscular system. It is
a disease of the nervous
system. It is a disease
of the endocrine system.
It is a disease of the re-
productive system. It is
a disease of the diges-
tive system. It is a
disease of the respira-
tory system. It is a
disease of the circula-
tory system. It is a
disease of the excretory
system. It is a disease
of the integumentary
system. It is a disease
of the musculoskeletal
system. It is a disease
of the skeletal system.
It is a disease of the
muscular system. It is
a disease of the nervous
system. It is a disease
of the endocrine system.
It is a disease of the re-
productive system. It is
a disease of the diges-
tive system. It is a
disease of the respira-
tory system. It is a
disease of the circula-
tory system. It is a
disease of the excretory
system. It is a disease
of the integumentary
system. It is a disease
of the musculoskeletal
system. It is a disease
of the skeletal system.
It is a disease of the
muscular system. It is
a disease of the nervous
system. It is a disease
of the endocrine system.
It is a disease of the re-
productive system. It is
a disease of the diges-
tive system. It is a
disease of the respira-
tory system. It is a
disease of the circula-
tory system. It is a
disease of the excretory
system. It is a disease
of the integumentary
system. It is a disease
of the musculoskeletal
system. It is a disease
of the skeletal system.
It is a disease of the
muscular system. It is
a disease of the nervous
system. It is a disease
of the endocrine system.
It is a disease of the re-
productive system. It is
a disease of the diges-
tive system. It is a
disease of the respira-
tory system. It is a
disease of the circula-
tory system. It is a
disease of the excretory
system. It is a disease
of the integumentary
system. It is a disease
of the musculoskeletal
system. It is a disease
of the skeletal system.
It is a disease of the
muscular system. It is
a disease of the nervous
system. It is a disease
of the endocrine system.
It is a disease of the re-
productive system. It is
a disease of the diges-
tive system. It is a
disease of the respira-
tory system. It is a
disease of the circula-
tory system. It is a
disease of the excretory
system. It is a disease
of the integumentary
system. It is a disease
of the musculoskeletal
system. It is a disease
of the skeletal system.
It is a disease of the
muscular system. It is
a disease of the nervous
system. It is a disease
of the endocrine system.
It is a disease of the re-
productive system. It is
a disease of the diges-
tive system. It is a
disease of the respira-
tory system. It is a
disease of the circula-
tory system. It is a
disease of the excretory
system. It is a disease
of the integumentary
system. It is a disease
of the musculoskeletal
system. It is a disease
of the skeletal system.
It is a disease of the
